Architecture

Cloud Architecture

deepen knowledge on architecting solutions and applications on cloud-based infrastructures.

- [Cloud computing](#)

Snippet from [Wikipedia](#): **Cloud computing architecture**

Cloud computing architecture refers to the components and subcomponents required for cloud computing. These components typically consist of a front end platform (fat client, thin client, mobile), back end platforms (servers, storage), a cloud based delivery, and a network (Internet, Intranet, Intercloud). Combined, these components make up cloud computing architecture.
