Continuous Improvement Plan Template

What is Continuous Improvement Plan Template?

A Continuous Improvement Plan Template serves as a structured framework designed to guide organizations through the process of ongoing enhancement of their systems, processes, and outcomes, aligning with best practices and methodologies such as TOGAF (The Open Group Architecture Framework). This template typically includes sections for defining objectives, identifying key performance indicators (KPIs), assessing current capabilities, and outlining targeted improvement initiatives. By employing this template, organizations can systematically evaluate their architectural landscapes, promote iterative learning, and implement changes that foster agility and innovation, ultimately driving alignment between business goals and IT strategies in a manner consistent with enterprise architecture principles.
