Snippet from *Wikipedia*: **Microsoft Dynamics 365**

**Microsoft Dynamics 365** is a product line of enterprise resource planning (ERP) and customer relationship management (CRM) applications announced by Microsoft in July 2016 and released on November 1, 2016. There are editions available: a Business Edition which includes a Financials application, based on the project code-named 'Madeira', and an Enterprise Edition which comprises several CRM applications (field service, sales, project service automation, and customer service).

On July 1, 2017, the Dynamics 365 line was repackaged so that the CRM applications are now called the "Customer Engagement Plan." The ERP application is now called Microsoft Dynamics 365 for Finance and Operations, however it is only available as part of the "Unified Operations Plan," which also includes the standalone applications Dynamics 365 for Talent and Dynamics 365 for Retail. Together, the two plans form the "Dynamics 365 Plan."
