

# PMBOK

The Guide to the Project Management Body of Knowledge (PMBOK Guide) is a document resulting from work overseen by the [Project Management Institute \(PMI\)](#).

Project management processes fall into five groups:

1. Initiating
2. Planning
3. Executing
4. Monitoring and Controlling
5. Closing

Project management knowledge draws on ten areas:

1. Integration
2. Scope
3. Time
4. Cost
5. Quality
6. Procurement
7. Human resources
8. Communications
9. Risk management
10. Stakeholder management

Knowledge Areas	Process Groups				
	A. Initiating Process	B. Planning Process	C. Executing Process	D. Monitoring & Controlling Process	E. Closing Process
1. Integration Management	A1	B1	C1	D1	E1
2. Scope Management		B2		D2	
3. Time Management		B3		D3	
4. Cost Management		B4		D4	
5. Quality Management		B5	C5	D5	
6. Human Resource Management		B6	C6		
7. Communications Management		B7	C7	D7	
8. Risk Management		B8		D8	
9. Procurement Management		B9	C9	D9	E9
10. Stakeholder Management	A10	B10	C10	D10	

Snippet from *Wikipedia*: [Project Management Body of Knowledge](#)

The **Project Management Body of Knowledge** is a set of standard terminology and guidelines (a body of knowledge) for project management. The body of knowledge evolves over time and is presented in *A Guide to the Project Management Body of Knowledge* (the *Guide to the PMBOK* or the *Guide*), a book whose sixth edition was released in 2017. The Guide is a document resulting from work overseen by the Project Management Institute

(PMI), which offers the CAPM and PMP certifications.

Much of *the PMBOK Guide* is unique to project management such as critical path method and work breakdown structure (WBS). *The PMBOK Guide* also overlaps with general management regarding planning, organising, staffing, executing and controlling the operations of an organisation. Other management disciplines which overlap with the PMBOK Guide include financial forecasting, organisational behaviour, management science, budgeting and other planning methods.

## PMBOK vs Agile (Software)

PMBOK Knowledge Areas	Agile Practices
1. <b>Integration Management</b>	Methods: Scrum
2. <b>Scope Management</b>	Backlog Management
3. <b>Time Management</b>	Fixed: Iteration (time)
4. <b>Cost Management</b>	Fixed: Iteration (budget)
5. <b>Quality Management</b>	DevOps
6. <b>Human Resource Management</b>	Team, Retrospective
7. <b>Communications Management</b>	Scrum Master
8. <b>Risk Management</b>	Minimum viable product (MVP)
9. <b>Procurement Management</b>	
10. <b>Stakeholder Management</b>	Product Ownership
